Four Questions—and Understanding The Differences Among Them
as well as The Implications of Those Differences

- *Why* does existence exist?
- What “external” “authority” or “reason” “justifies” existence’s existence?
- *How* does existence *work*? What are the dynamics, mechanisms, properties, internal interrelational forces, and etc. *of what exists*?
- What are the nature and characteristics of *life*, in the context of what exists?

Be Well!
